Extreme Kleaner, A Non-Toxic, Biodegradable All Purpose Cleaner Is Gaining Popularity Quickly And Is Now Offered in True Value and Ace Hardware Stores In Portland, Oregon and Madison, Wisconsin

Portland, Oregon (PRWEB) February 25, 2015

Extreme Kleaner, a powerful new green cleaner is quickly appearing on the shelves of selected hardware stores, local retailers, and on-line shopping platforms due to its rising market demand. Extreme Kleaner is a new non-toxic, all purpose cleaner-degreaser that is biodegradable and safe to use around children and pets. This popular new eco-friendly cleaner is offered by a small environmental company based in Ogdensburg, New Jersey, Extreme Energy Solutions Inc.

Extreme Kleaner is gaining popularity quickly in the North East where it is manufactured and is offered in several True Value and Ace Hardware stores as well as various other retailers in New Jersey, New York and Pennsylvania.

And now, two Hankins True Value stores in Portland, Oregon have adopted the non-toxic cleaner, for offering to its customers. Hankins True Value located at 1720 SE Hawthorne Blvd has stocked the first round of Extreme Kleaner in a cardboard display complete with signs and brochures, while the Hankins True Value located at 3942 NE Martin Luther King Jr Blvd has also stocked the bottles on their shelves for purchase.

The popular green cleaner made its jump to the west coast when Extreme Energy Solutions Business Development Consultant, Barry Smith introduced the product to the True Value stores in Portland.

Smith was excited to see a product he uses every day deployed in his home state and noted, "My congratulations to Lois Hankins of Hankins True Value Hardware in Portland, Oregon. Lois owns two True Values in Portland and is very pleased to offer our Extreme Kleaner to her "green" patrons. I've never met a nicer, more dedicated person than Lois. She embodies the finest attributes of hard work and is dedicated to giving her customers the best service. True Value can be very proud of this partnership. Welcome aboard!

Extreme Kleaner is also making its impact in the upper Mid-west, where the product can be found on the shelves of Ace Hardware Stores located in the Hilldale section of Madison, Wisconsin and in Sauk City. Dorn True Value Hardware stores located on Midvale Ave in Madison and in Oregon, Wisconsin have offered the product on their sales floor for just over two months, and have done so with success. Extreme Kleaner has been featured in Natural Awakenings Magazine in the Southern Wisconsin/Madison territory, spurring off positive sales reviews in the area.

In fact, Extreme Kleaner has been receiving a warm welcome by consumers and retailers wherever it has been introduced. This could be because several similar products available in stores today are labeled green, yet still contain one or two toxic chemical ingredients.

Extreme Kleaner raises the bar by being 100% environmentally safe, completely biodegradable and non-toxic. It is completely safe to use around pets and children which gives

health-conscious consumers the peace of mind they desire.

And unlike many eco-friendly cleaners, Extreme Kleaner works exceptionally well at cutting grease, dirt and grime. It is ideal for almost every household cleaning chore and is also used in industrial and commercial applications with spectacular results as well.

"I sprayed the area with Extreme Kleaner, placed the shirt in the washer, and after the cycle had completed I pulled the shirt out of the washer and like magic, the black shoe polish was gone!" -Kenneth Newton, Jacksonville, FL.

Company representatives agree that quality control has been a big part of the growing marketing success. The product has been evaluated by the National Sanitation Foundation and has been deemed safe for use in food areas with NSF registration number 147501. It has an official listing in the NSF database with the category designation A1 and A8. The popular nationally syndicated TV program, Today In America with Terry Bradshaw has even featured [Extreme Kleaner and Extreme Energy Solutions](#) on one episode of their program.

Another nice quality of this green cleaner is that it is made in the United States. [Samuel Burlum](#), President and CEO of Extreme Energy Solutions Inc. has initiated a strict made in the USA policy to help promote local job and economic growth. The cleaner is made and packaged in New Jersey, just down the road from the head offices of Extreme Energy Solutions.

Extreme Kleaner is offered online through the products website, [ExtremeKleaner.com](#) as well as in the [buy green cleaner](#) section of Amazon.com. Many customers in the North East can grab a bottle at their local True Value or Ace Hardware store, and now due to the rising demand, people in Portland, Oregon and the Madison, Wisconsin area can do the same.
