*Passaic Valley Fraternal Order of the Police Lodge #181 awards the New Jersey Based green technology company, Extreme Energy Solutions, as 2015 Company of the Year in the Professional Area of Environmentally Friendly Energy Products.*

Ogdensburg, New Jersey (PRWEB) April 15, 2015

Extreme Energy Solutions recently was honored with an acknowledgement and official proclamation recognizing the company as Passaic County's 2015 Company of the Year in the professional area of Environmentally Friendly Energy Products. The award was given by the Passaic Valley Fraternal Order of Police Lodge No. 181, and was signed and presented by Lieutenant Joseph Sferruzza, president of the FOP Lodge.

Officer Joe Klein (Retired) who assist the FOP lodge and assist PBA 152, presented the awards to the Company.

We appreciate all that Extreme Energy Solutions has done for the community, state, and for our organization, expressed Klein.

"On behalf of the Company, I am honored to accept this honor," said Samuel Burlum, the companys CEO and President, "We continue our efforts in being an asset to the community, and believe in our path of creating value in the county, state, and nation. This award reaffirms our efforts have been effective.

We have a great team of people who really care about being of service to others while creating value through products and services that aim to address challenges that effect our environment, economic climate, and community, added Burlum

Extreme Energy Solutions has been aggressively proving its business model and the validity of its technology on the worldwide stage, with projects ongoing in China, Jordan, Canada, and the United States which have yielded positive results. Extreme is known for its flagship product, the Smart Emissions Reducer, a device designed to lower harmful emissions omitted by internal combustion engines. The product has been utilized by municipalities, government agencies, and private sector on their vehicle fleets since 2010.

The Company has other environmentally friendly products and services as part of its offerings. Extreme Kleaner is a non-toxic biodegradable multi-purpose cleaner-degreaser which is manufactured in the Garden State. Recently the Company added a glass, tile, and more formula to the line-up. Product is available via selected Ace Hardware and True Value Hardware stores, and online from Amazon.com, KeepAmerica.com, and ExtremeKleaner.com.

Extreme Energy Solutions is also the parent company of Fleet Works Leasing, an entity set up to offer said mentioned technology on terms for folks who wish to purchase product who may not have all of the upfront resources to make the investment into the technology. E-Tech Performance is the companys software development and research arm; focused on developing software solution for emissions reduction and fuel economy technical strategies.

Extreme Energy Solutions is a supporter of many community causes, including assisting Veterans in need. Located in Ogdensburg, New Jersey, the facility houses the companys research and development department, technical training classes, warehousing/logistics, light manufacturing and repackaging, and some administration. Experts in the field of green technology whom focus on fuel economy, emissions reduction, vehicle performance, converge on the facility once a year, where visitors and experts share their ideas on how-to bring such concepts to market.

This is the second time Extreme Energy Solutions was recognized for its contribution to the industry and community by the Passaic Valley Fraternal Order of Police Lodge #181. The company received the same honor in 2013. Extreme Energy Solutions, and its team, under the leadership of CEO and President Samuel K. Burlum, have continued to accumulate industry accolades in recent years. Extreme has been recognized by the People of Distinction Humanitarian Foundation in 2014; World Green Energy Symposium Nova award was presented in to the company in 2013; are just a few examples of organizations that have recognized the companys efforts.

The Company is planning the future production and release of a video documentary series that will highlight fuel economy improving technology. Many of the companys current videos can be viewed on Youtube. Visit <http://www.ExtremeEnergySolutions.net>, or <http://www.SamBurlum.com> for more information.
